WS STEEL ANNOUNCES MORE JOBS, INVESTMENT IN STEINBACH

Steinbach, MB – September 2, 2015 –WS Steel, a leader in complete steel services and solutions, is pleased to announce that it has won several manufacturing contracts and completed significant expansion initiatives.

WS Steel continues to make excellent progress as they ramp up their overall capabilities to serve customers better and earn new business. A number of recent initiatives include;

- Completing a 20,000 sq. ft. plant expansion with several new 5-50 ton overhead cranes
- Installing a new smoke extraction and cleaning system for industry leading air quality
- Installing new pieces of equipment including CNC Machining Centers, CNC Roller, and a fully automated Fibre Laser with auto loading/unloading

WS Steel's investments have paid off with the acquisition of new multi-million dollar manufacturing agreements. One of these new customers is Clean Seed Capital Group which has recently placed their first manufacturing orders for the revolutionary Clean Seed CX-6 SMART Seeder™.

Joe Waldner, President & CEO commented "The Clean Seed partnership represents a monumental shift in our company as we will be manufacturing a complete product right from design and engineering through manufacturing, final assembly and shipping. For the first time in our history, we will not only be a supplier but a true fully integrated partner with greater control over our destiny."

Waldner adds "We strive to provide meaningful work to over 200 employees and are looking to the local economy to help support our continued growth in positions ranging from engineering and administration to welders and assembly personnel. We constantly invest in the latest technology and work hard to be recognized as an employer of choice, offering competitive wages, and a healthy work environment."
